HOLY AMERICAN EMPIRE / MARS LAND REGISTRY

HAE-MAR-022 / MAP REFERENCE AND ALLOCATION SCHEDULE

Geographic allocation revision 3 / source maps 04 and 05 / 2026-11-19

Attach this page to the form. Geographic allocations and MZ reference areas are separate layers.

ALLOCATION BOUNDARIES - EAST-POSITIVE DECIMAL DEGREES

Allocation	West longitude	East longitude
USA	85.9510445338	171.7255222669
France	171.7255222669	-102.5000000000
Russia	-102.5000000000	-16.7255222669
China	-16.7255222669	69.0489554662
Alexander Durchdenwald	69.0489554662	85.9510445338

All allocations: 90 S to 90 N. France crosses +/-180; traverse eastward across that seam.

Each country: 8,500,000,000 acres. Alexander: approximately 1,674,947,617 acres.

RESERVE: 69.0489554662 to 71.5717342230 E / 250,000,000 acres / NOT FOR SALE

SALES: 71.5717342230 to 85.9510445338 E / approximately 1,424,947,617 acres

Website purchases: Alexander sales area only, USD $20 per acre; exclude all reserve overlap.

Country sale records use the separate country route. A permit or title cannot override this allocation.

MZ GEOGRAPHIC REFERENCES - ORIGINAL SURFACE MAP 03

Six columns west to east: -180, -120, -60, 0, 60, 120, 180 degrees.

Rows north to south: 90 to 54 N = MZ-01-06; 54 to 18 N = MZ-07-12;

18 N to 18 S = MZ-13-18; 18 to 54 S = MZ-19-24; 54 to 90 S = MZ-25-30.

Use map 02 for S settlement, L landing/launch, R research, X resource, P protected, V reserve.

MZ use proposals are not permits. MZ V reserve is distinct from Alexander's 250-million-acre reserve.

MZ IDs are not parcel IDs. The subdivision diagram is illustrative; attach actual parcel boundaries.

FILING REFERENCES - COMPLETE FOR THE SITE, ROUTE OR AFFECTED RECORD

Allocation(s) and reserve / sales / country area

All intersected MZ IDs (MZ-01 through MZ-30)

Parcel / route boundary attachment and revision

Map 02 use class and separate authorization ref.

Office: allocation / reserve overlap check reference

Office: check date (YYYY-MM-DD)

Use planetocentric latitude and east-positive longitude; record seam crossings explicitly.

Straight sector edges are meridians. West edges included; east edges excluded; poles share boundaries.

Acreage basis: sphere radius 3,389.5 km; 1 acre = 4,046.8564224 square metres. Use full precision.

For multiple sites or nonrectangular parcels, attach the full boundary schedule; do not use a box alone.

No individual parcel is allocated, reserved, approved or conveyed by this blank form.
